## Some Tips

This class can be time consuming.

- ❑ Understanding the material takes time.
- ❑ Don't skip topics. Seek help until you don't understand completely.
- ❑ Don't bother too much about exam question pattern.

Learn the class material as closely as possible.

- ❑ Do not underestimate the workload.
  - A task left for tomorrow is a task left undone.
  - Planning and scheduling your time is essential.
  - Don't be afraid to ask questions.
